Dear Mr. Morris:

In accordance with California's Digital Infrastructure Video Competition Act (DIVCA), CoxCom Inc., doing business as Cox Communications, respectfully submits the following amendment to our existing state authorized Franchise Number 0003. Cox Communications seeks to replace the current local franchise, covering Cox service area within the city of **San Diego**, with the state franchise as video service is also provided by another state franchise holder. We request the state franchise amendment covering the city of San Diego be effective on May 15, 2011.

Additionally, Cox requests the following information remain confidential:

- Number of Households Offered Video Service
- Number of Households Offered Broadband Service
- Number of Households Subscribing to Video Service
- Number of Households Subscribing to Broadband Service

Enclosed is a copy of the state authorized amended franchise application, pursuant to California Public Utilities Code § 5840(e), utilizing the 2010 Census Bureau's census geometry and household data where we were able to so. When the remaining Census Bureau's 2010 Census data becomes commercially available via our vendor, an amendment to the Telephone Service Area can be provided. A copy of this application has been mailed to the aforementioned local franchise authority.
