Re: Convergens Services LLC Surrender of Video Franchise

Dear Mr. Morris:

As you know, Convergens SF LLC ("Convergens") obtained a Video Franchise from the California Public Utilities Commission ("CPUC") as part of its preparation for providing 1 Gbps broadband Internet access service, and potentially other services, to the Shipyard development in San Francisco ("HPSD"). The service area of the CPUC franchise is the Shipyard development. Convergens never obtained a Utility Conditions Permit Agreement with the City and County of San Francisco authorizing use of public rights of way, and never provided cable video services to any subscriber. Convergens only provided 1 Gbps Internet access service and database services related to Over the Air direct broadcast signals from Mount Sutro provided without charge to all residents of the Shipyard.

As of November 2, 2015, the agreement between Convergens and HPSD was terminated by mutual agreement and Convergens SF ceased operations. The residents of the Shipyard began receiving replacement broadband service from Race Communications. As a result, there is no circumstance in which Convergens foresees providing video services requiring a Video Franchise from the CPUC to its service area. Convergens therefore surrenders its Video Franchise to the CPUC at the earliest date permissible under applicable law.

This Notice provided out of an abundance of caution pursuant to Section 5840 of The California Public Utilities Code. Convergens has also notified the City and County of San Francisco, Department of Technology, of the surrender of its Franchise.

Because of the lack of any video subscribers, and cessation of its other operations, Convergens requests that the Commission immediately accept the surrender of the Convergens Video Franchise and inform Convergens that it is no longer in effect as soon as permissible under applicable law.

If there are any questions, please contact the undersigned.

Sincerely,

A handwritten signature in blue ink that reads "James M. Tobin".
