Re: AT&T California's Application for Renewal of California State Video Franchise 0002

Dear Mr. Morris:

Pacific Bell Telephone Company d/b/a AT&T California ("AT&T"), pursuant to Section 5850 of the Public Utilities Code and Decision (D.) 14-08-057, hereby files an application for renewal of its state video franchise 0002 for an additional 10-year period. AT&T's current franchise expires March 30, 2017. A completed application form, a CD containing completed templates, Appendices A and B, a check in the amount of \$2,000 for the application fee, and a copy of the letter provided to the local entities within AT&T's franchise area are enclosed.

The franchise area covered by this renewal application is the same area as for franchise 0002 (filed March 7, 2007) inclusive of AT&T's initial application and its five subsequent amendment applications (filed August 25, 2008, August 20, 2009, August 16, 2010, November 2, 2011 and August 12, 2013 ), all of which were approved by the Commission.

This renewal application includes a collection of census block groups (in response to Question 14), provided on CD in Excel format using the template provided by the Communications Division, which represents a geographic description of AT&T's Video Service Area, as approved by the Commission in the prior applications.

The renewal application states that if an applicant has already reported socioeconomic data as part of the Commission's yearly Digital Infrastructure and Video Competition Act (DIVCA) data collection, that data does not need to be submitted again. On April, 1, 2016, the 2016 Annual Report for State Video Franchise No. 0002 was filed, and therefore AT&T indicates "Not Applicable" to Questions 15 through 17 on the renewal application form.

As stated in the affidavit to this renewal application, AT&T is not in violation of any final nonappealable court order issued pursuant to DIVCA. Accordingly, AT&T respectfully requests that the Commission grant this application for renewal of state video franchise 0002.
