Data is current as of April 1, 2022. Decimals have been rounded to the nearest whole number.

<sup>1</sup> Pacificorp’s California service territory does not include any jurisdictions that received direct allocations, meaning all of their customers would apply through the statewide HCD portal.

<sup>2</sup> Bear Valley Electric Service’s territory is entirely located within San Bernardino County, an “Option C” jurisdiction, meaning none of their customers would apply through the statewide HCD portal.

<sup>3</sup> Liberty/Calpeco’s service territory includes portions of Placer County, an “Option C” jurisdiction. The rest of Liberty/Calpeco’s service territory consists of eastern portions of rural counties that did not receive direct allocations, meaning customers in these areas would apply through the statewide HCD portal: Sierra, Nevada, El Dorado, Mono, and Alpine Counties.

<sup>4</sup> Projected Number of Customers Needed to Meet Minimum Participants as directed in ALJ Ruling of April 5, 2021.

<sup>5</sup> Southwest Gas will be included in HCD’s ‘short process’ for utilities with an expected number of applicants of 500 or less. Through this process, HCD will not ask for validation of customer arrears and will instead rely upon the bills the applicant provides.
