

# Energy Division Central Files Document Coversheet

**Directions:** Submit all documents and submittal questions to Energy Division Central Files via email [EnergyDivisionCentralFiles@cpuc.ca.gov](mailto:EnergyDivisionCentralFiles@cpuc.ca.gov)

1. Fill out coversheet completely. Coversheet can be embedded as page 1 of the electronic compliance filing, or can be submitted as a separate document that is attached to the email that delivers the compliance filing.
2. If the coversheet is submitted as separate document, please name the coversheet file with the same document name used in your primary document (see Section A) + plus the word “cov” (for coversheet). For example, the name of the coversheet file will be something like: **West Coast Gas Company Monthly Gas Report 201602 COV.docx**
3. If the document is confidential add CONF (for confidential). For example, the name of the coversheet file will be something like: **West Coast Gas Company Monthly Gas Report 201602 CONF.docx** and **West Coast Gas Company Monthly Gas Report 201602 COV CONF.docx**
4. All documents are required to be submitted in an electronically *searchable* format.
5. Documents need to reference the reason for the mandate that ordered the filing in Section B or C. If you are unable to reference a proceeding or explain the origin of your filing, please contact Energy Division Central Files.
6. To find a proceeding number (if you only have a decision number), go to <http://docs.cpuc.ca.gov/DecisionsSearchForm.aspx>; enter the decision number, and the results shown include the proceeding number.

NOTE: It is Energy Division’s preference to have document components combined into one PDF document with the top sheets being the cover sheet, the next an executive’s letter (as applicable), and the compliance data as the third element.

## A. Document Name

Today’s Date: 4/3/2018

1. Utility Name: Southern California Edison
2. Document Submission Frequency (Annual, Semi-Annual, YTD, Quarterly, Monthly, Weekly, Ad-hoc, Once, Other Event): Annual
3. Report Name: Rule 20A Program Budget and Allocations
4. Reporting Interval (for this submission, e.g. 2015 Q1 – that data date): 1968 – 2004, excluding 1969, 1971, and 1973
5. Document File Name (format as 1+2 + 3 + 4): Southern California Edison Annual Rule 20A Program Budget and Allocations 1968 – 2004, excluding 1969, 1971, and 1973.
6. Append the confidential and/or cover sheet notation, as appropriate. N/A

Sample Document Names:

*Utility Name + Submittal Frequency + Report Name + Year + Reporting Interval + (COV or CONF or both or neither)*

<i>SCE Annual Procurement Report 2015</i>	<i>West Coast Gas Company Monthly Gas Report 201602 CONF</i>
<i>SDG&amp;E Quarterly DR Forecast 2015Q1</i>	<i>West Coast Gas Company Daily Gas Report 20160230 COV</i>
<i>West Coast Gas Company Monthly Gas Report 201602</i>	<i>West Coast Gas Company Monthly Gas Report 201602 COV CONF</i>
<i>West Coast Gas Company Daily Gas Report 20160230</i>	<i>SCE Annual Procurement Report 2015 LTR</i>

7. Identify whether this filing is  original or  revision to a previous filing.
  - a. If revision, identify date of the original filing:

# Energy Division Central Files Document Coversheet

## B. Documents Related to a Proceeding

All submittals should reference both a proceeding and a decision, if applicable. If not applicable, leave blank and fill out Section C.

1. Proceeding Number (starts with R, I, C, A, or P plus 7 numbers): N/A
2. Decision Number (starts with D plus 7 numbers): D.73078
3. Ordering Paragraph (OP) Number from the decision: 6

## C. Documents Submitted as Requested by Other Requirements

If the document submitted is in compliance with something other than a proceeding, (e.g. Resolution, Ruling, Staff Letter, Public Utilities Code, or sender's own motion), please explain: Southern California Edison (SCE) provides this report annually pursuant to Decision 73078. Energy Division staff requests that SCE submit electronic copies of the Rule 20A Program Budget and Allocations from 2005 to 2018.

## D. Document Summary

Provide a Document Summary that explains why this report is being filed with the Energy Division. This information is often contained in the cover letter, introduction, or executive summary.

As required by Decision 73078, Southern California Edison submits to the California Public Utilities Commission its proposed budget for Rule 20A conversions for each year and the allocations of that amount to the cities and counties within its service territory where SCE provides retail electric service via overhead-served meters.

## E. Sender Contact Information

1. Sender Name: Annette Tran
2. Sender Organization: Southern California Edison
3. Sender Phone: 626-302-1811
4. Sender Email: Annette.Tran@sce.com

## F. Confidentiality

1. Is this document confidential?  No  Yes
  - a. If Yes, provide an explanation of why confidentiality is claimed and identify the expiration of the confidentiality designation (e.g. Confidential until December 31, 2020), and a signed declaration of confidentiality.

## G. CPUC Routing

Energy Division's Director, Ed Randolph, requests that you not copy him on filings sent to Energy Division Central Files. Identify below any Commission staff that were copied on the submittal of this document.

1. Names of Commission staff that sender copied on the submittal of this Document: Jonathan Frost

*Southern California Edison Company*

P. O. BOX 351

LOS ANGELES, CALIFORNIA 90053

W. E. MONTGOMERY  
VICE PRESIDENT

November 8, 1967

Re: Case No. 8209

Public Utilities Commission  
of the State of California  
State Building  
San Francisco, California 94102

Gentlemen:

In accordance with Decision No. 73078 of Case No. 8209, there is attached a statement setting forth the Southern California Edison Company's 1968 budgeted amount of \$6,500,000 for the replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule prescribed in Appendix D.

Because of the fact that the Section A program mentioned above is just now beginning, it is quite probable that the total budget amounts will not be expended during 1968. A further complication is the large number of small allotments which may preclude any significant conversion in certain cities for several years. The actual expenditures for 1968, therefore, will vary considerably from the budgeted allocation.

Very truly yours,

*W. E. Montgomery*  
W. E. MONTGOMERY

\* At present, an election for incorporation of Irvine in Orange County is pending. The election for incorporation is scheduled for December, 1971. If passed by December 31, 1971, a transfer of \$16,000 will be made from the unincorporated area of Orange County to the new City of Irvine. We will advise you of the transfer if the incorporation is a success.

Gentlemen:

In accordance with Decision No. 73078 of Case 8209, the Southern California Edison Company has allocated for 1974 \$11 million for the replacement of overhead with underground facilities. Attached is a complete breakdown identifying the allocation to each city and unincorporated area.

This brings our total allocation to date from 1968 through 1974 to \$56 million. Our 1974 allocation is a \$1½ million increase over 1973.

Very truly yours,

Original Signed by  
G. E. WILCOX

California State Building  
San Francisco, California 94102

Attn: Electric Branch

Gentlemen:

In accordance with Decision No. 73078 of Case 8209, the Southern California Edison Company has allocated \$11 million for the calendar year 1975 for the replacement of existing overhead distribution facilities with underground. This brings our total allocation, to date, from 1968 through 1975, to \$67 million.

Attached is a table showing that portion of the \$11 million allocated to each city and unincorporated county area in the Company's service territory.

The 1975 allocation is the same as that made in 1974 and represents a departure from our practice, since 1969, of increasing conversion funds each year. This decision was made in an attempt to be responsive to a deteriorating economic climate, inflationary pressures, and the concerns of our customers and the general public regarding the rising cost of electric utility service. We feel, also, that this action will reduce the unexpended allocations from prior years which, at the end of 1973, totaled \$11.8 million.

We hope that subsequent years' allocations will continue to reflect our past trend of annual increases; however,

if economic conditions continue to deteriorate or, if we are unable to attract capital funds at reasonable rates, we will be forced to re-evaluate our conversion programs.

Very truly yours,

  
G. E. Wilcox

California State Building  
San Francisco, California 92104

Attention: Mr. Harold T. Sipe  
Electric Branch

Dear Sir:

As requested in the April 21st letter from Mr. Wm. R. Johnson to Mr. Ron Daniels relating to Decision No. 73078 of Case 8209, the Southern California Edison Co. has allocated \$11 million for the calendar year 1976, for the replacement of existing overhead distribution facilities with underground. This brings our total allocation from 1968 through 1976 to \$78 million.

Attached is a table showing that portion of the \$11 million allocated to each city and unincorporated county area in the Company's service territory.

With the recent Commission Decision No. 85497, Case 9365, that requires conversion of overhead transmission facilities to underground, the estimated unexpended allocation problem identified in our letter of January 13, 1976, should be dissipated over the next few years by the inclusion of transmission in the conversion program. While the effect will not be significant in 1976 due to longer lead times required for transmission projects, we would anticipate that expenditures will more closely approximate allocations in 1977 and future years.

Very truly yours,

G. E. WILCOX

PUBLIC UTILITIES COMMISSION  
State of California  
California State Building  
San Francisco, California 92104

Attention: Mr. Harold T. Sipe  
Electric Branch

Dear Sir:

In accordance with Decision Nos. 73078 and 85497, and Case Nos. 8209 and 9365, the Southern California Edison Company has allocated \$12.5 million for the calendar year 1978 for the replacement of existing overhead electric facilities with underground. This brings our total allocation, to date, from 1968 through 1978, to \$103 million.

Attached is a table showing that portion of the \$12.5 million allocated to each city and unincorporated county area in the Company's service territory.

Since the program of undergrounding was instituted in 1968 by the Commission's Decision, Southern California Edison Company's annual Rule 20 allocation has grown substantially. However, the returns from the Company's expenditures of millions of dollars for underground conversion are largely subjective and aesthetic. No additional revenues are generated, nor do the expenditures contribute to system reliability. Our ratepayers are expending considerable sums of money for results that benefit only those who are located in or pass through the areas where undergrounding has been done.

Electric rates have risen sharply in the last few years to a point where many customers face real hardships in paying their utility bills. Lifeline rates were ordered by the Commission in an attempt to mitigate the effect of these cost increases. Under these circumstances, the Company has an extra responsibility to be prudent as to any expenditures (including underground conversions) which add to the ratepayer's burden.

SCE

Many conversion projects have been postponed as a result of financial straits cities and counties are experiencing in our present economic climate. Carryover of Rule 20 funds have increased from \$25 million to \$26.5 million this year.

Considering other utilities might have the same problem of an exorbitant amount of carryover, perhaps it would be timely to review the present methods of allocation. A better mechanism of funding could serve to alleviate financial burden to ratepayers not involved in underground conversion areas and reduce carryover as well.

  
DAVID J. FOGARTY

December 7, 1978

Public Utilities Commission  
State of California  
California State Building  
San Francisco, California 92104

Attention: Mr. Harold T. Sipe  
Electric Branch

Dear Sir:

In accordance with Decision Nos. 73078 and 85497 and Case Nos. 8209 and 9365, the Southern California Edison Company has allocated \$12.5 million for the calendar year 1979 for the replacement of existing overhead electric facilities with underground. This brings our total allocation to date from 1968 through 1979 to \$115.5 million.

Attached is a table showing that portion of the \$12.5 million allocated to each city and unincorporated county area in the Company's service territory.

As stated in our letter of transmittal last year, Southern California Edison Company's annual Rule 20A allocation is significantly higher than the initial allocation of \$6,500,000 in 1968. In addition to conversion from overhead to underground through Rule 20A, increasing sums are being expended each year on other underground construction. From January through October of 1978, we have recorded \$50,870,000 in underground construction over and above this year's Rule 20A expenditures. The total underground investment for the distribution system approximates \$600,000,000 for approximately 610,000 meters (20% of the distribution system). This represents a capital investment of \$985 per underground meter. The underground expenditures by Edison become even more substantial when this 20% of the system at \$985 per meter is compared to the remainder of the system which is overhead at \$370 per meter.

Viewing Edison's underground program, based upon trench miles, with the exception of Consolidated Edison in New York, we are probably the second largest underground utility in the United States.

As you are aware, the initial cost of undergrounding is only the beginning of the cost impact in that our operation cost per mile of line is \$140 and our maintenance cost per mile of line is \$500 on the underground system when the operation cost is only \$90 and maintenance cost is \$285 per mile of line on the overhead system.

All customers are, therefore, expending considerable sums of money for largely subjective and aesthetic reasons and for results that only benefit those who are located in or pass through the areas where undergrounding has been done. From a Company standpoint, no additional revenues are generated nor do the expenditures contribute to system reliability. It does not appear reasonable that 100% of our customers bear the increased cost of undergrounding, both conversion and new, when only 20% of the customers are benefitted.

With the recent upward pressure on rates, the Company feels that we have a very strong responsibility to be prudent as to any expenditures (including underground conversions) which add to the ratepayers' burden. As a result, we feel the Commission should seriously consider the reduction of conversion expenditures and/or develop better mechanisms of funding. In this regard, to more effectively identify projects with the greatest benefit to all, financial participation by the city or agency in the conversion costs should be considered. Another approach could be a direct surcharge to customers being benefitted by the undergrounding.

If either or a combination of these approaches were taken, not only would a more equitable distribution of costs result, but a more effective utilization of available funds would exist. Allocations could, therefore, be expanded or contracted as the need arose based upon the willingness by customers and/or cities to participate.

Sincerely,

  
P. L. Martin

P. L. MARTIN  
VICE PRESIDENT

December 7, 1979

Public Utilities Commission  
State of California  
California State Building  
San Francisco, CA 92104

Attention: Mr. Harold T. Sipe  
Electric Branch

Dear Sir:

In accordance with Decision Nos. 73078 and 85497 and Case Nos. 8209 and 9365, the Southern California Edison Company has allocated \$13,250,000 for the calendar year 1980 for the replacement of existing overhead electric facilities with new underground facilities. This now brings our total 13-year allocation to date from 1968 through 1980 to 128,750,000 dollars.

Distribution of the reports listing all cities and counties and their respective dollar allocations will be made in January, 1980.

Sincerely,

Attachment

EDWARD A. MYERS, JR.  
VICE PRESIDENT

December 9, 1982

Public Utilities Commission  
State of California  
State Building  
San Francisco, California 94102

Attention: Mr. John E. Johnson

Dear Sir:

In accordance with Decision Nos. 73078 and 82 01 18 in Case 8209, Southern California Edison has established its Rule No. 20-A annual allocation of funds for 1982 at \$13,250,000; this amount being consistent with the recommendation of the Commission Staff.

The amount of funds specifically allocated to each city and county within Edison's service territory is shown on the attached list.

Notice of the 1982 allocation distribution will be made to all affected governmental entities and other interested parties by year-end 1982.

Sincerely,

PAW:eh

EDWARD A. MYERS, JR.  
VICE PRESIDENT

July 25, 1983

Public Utilities Commission  
State of California  
State Building  
San Francisco, California 94102

Attention: Mr. John E. Johnson

Dear Sir:

In accordance with the Commission's July 29, 1983 Resolution No. E-1977, Southern California Edison has increased its Rule No. 20-A annual allocation of funds for 1983 to \$18,730,000. With this revised annual allocation of funds for the conversion to underground of overhead electric facilities, SCE's cumulative 16-year Rule No. 20-A allocation is now \$177,885,000.

The amount of funds specifically allocated to each city and county within Edison's service territory is shown on the attached list.

Notice of the 1983 revised allocation distribution is now being made to all affected governmental entities and other interested parties.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Edward A. Myers, Jr.'.

Attention: Mr. John E. Johnson

Dear Sir:

In accordance with the Commission's June 6, 1984 Resolution No. E-2009, Southern California Edison Company has increased its Rule No. 20-A annual allocation of funds for 1984 to \$19,100,000. With this revised annual allocation of funds for the conversion to underground of overhead electric facilities, the Edison Company's cumulative 17-year Rule No. 20-A allocation is now \$196,985,000.

The amount of funds specifically allocated to each city and county within Edison's service territory is shown on the attached list.

Notice of the 1984 revised allocation distribution is now being made to all affected governmental entities and other interested parties.

Sincerely,

*Michael R. Peavey*

DIVISION VICE PRESIDENTS  
DIVISION MANAGER

SUBJECT: 1986 Rule 20A Allocation

The March 13, 1986, Rule 20A letter stated that Edison had filed a 1986 Rule 20A allocation request for \$25,500,000 with the CPUC. This requested funding level was reviewed and approved by the League of California Cities (League) special Rule 20A task force prior to its submittal to the CPUC. This agreement with the League was predicated on the intention that Edison would escalate the allocation level to \$34,500,000 in 1987, which would ensure that no cities or counties would be financially penalized if the League's proposed revised allocation method was approved by the CPUC for implementation in 1987.

Edison recently received CPUC Resolution E-2096, copy attached, which addressed our 1986 request for \$25,500,000, but ordered that \$28,000,000 be allocated for this year's program. Subsequent efforts to discuss our objectives with the CPUC and have the Resolution amended have been unsuccessful. Therefore, pursuant to the CPUC's order, it is imperative we adjust our 1986 allocation schedule.

Attached are the revised 1986 allocation packages that replace the original data forwarded to you on March 13, 1986. This material reflects the \$28,000,000 budget level and is spread on the existing overhead meter basis. A copy of the revised allocation listing should be forwarded to each city and county within your Division. Customer Service Staff will notify Los Angeles County and other interested outside concerns of these changes.

To continue our cooperation with the League in its efforts to effect an allocation formula change with the CPUC, we have agreed to revise our future years funding levels as follows: 1987 - \$37,000,000; 1988 - \$38,000,000; 1989 - \$40,000,000; 1990 - \$41,500,000. The funding increases for 1987 and 1988 are necessary to compensate our cities and counties for any potential allocation shortfall, if the proposed distribution formula change is eventually approved.

If you have questions, please contact me or Paul Fischer.

  
T. F. BRYSON

February 9, 1987

Mr. John L. Dutcher, Acting Chief  
Energy Services and Safety Branch  
Evaluation and Compliance Division  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, CA 94102

Dear Mr. Dutcher:

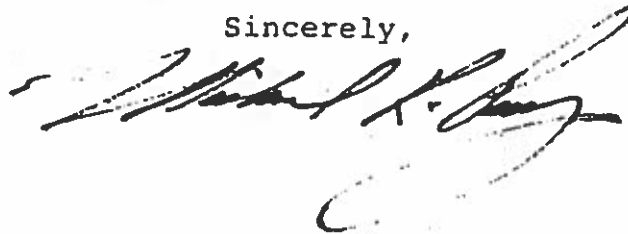

Pursuant to Decisions 73078 and 82-01-18 in Case 8209, Southern California Edison has established our 1987 Rule 20A allocation of conversion funds at \$30,000,000. This amount is an increase of \$2,000,000 or seven percent over the approved 1986 level.

We have reviewed the 1987 Rule 20A allocation with the League of California Cities and they support the \$30,000,000 funding level. With your approval of the 1987 allocation, our cumulative twenty-year Rule 20A commitment will exceed \$280,000,000.

Edison will continue to review the level of commitment to Rule 20A annually as we develop future capital budgets.

The 1987 funds specifically allocated to each city and county within our service territory are detailed on the attached listing. Notice of this allocation will be communicated to all affected governmental entities and other interested parties upon the Commission's formal adoption of this allocation level.

Sincerely,

GLM:eh

San Francisco, CA 94102

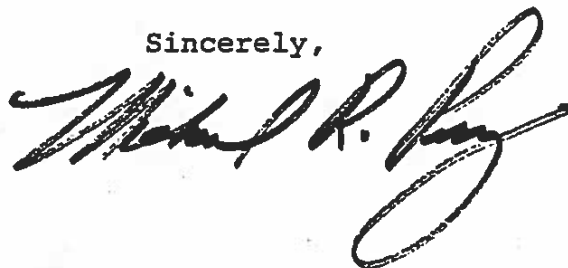

Dear Mr. Copeland:

Pursuant to Decisions 73078 and 82-01-18 in Case 8209, Southern California Edison has established our 1988 Rule 20A allocation of conversion funds at \$31,500,000. This amount is an increase of \$1,500,000 or five percent over the approved 1987 level. With your approval of the 1988 allocation, our cumulative 21-year Rule 20A commitment will exceed \$311,000,000.

Edison will continue to review the level of commitment to Rule 20A annually as we develop future capital budgets.

The 1988 funds specifically allocated to each city and county within our service territory are detailed on the attached listing. Notice of this allocation will be communicated to all affected governmental entities and other interested parties upon the Commission's formal adoption of this allocation level.

Sincerely,

GLM:eh

Mr. Vladislav A. Bevc  
Supervisor, Programs and Projects  
California Public Utilities Commission  
Energy Branch - CACD  
505 Van Ness Avenue  
San Francisco, California 94102

Dear Mr. Bevc:

This is to advise you that we have established the Southern California Edison Company 1989 Rule 20-A allocation at \$33,070,000. This is consistent with our 1988-92 Five-Year Plan as approved in Ordering Paragraph 2 of Resolution E-3113, dated November 9, 1988. Our 1989 allocation is based on the Five-Year Plan's approved constant funding level of \$31,500,000 escalated by 4.99 percent, per the WHL Index of O&M Non-Labor Escalation Rates provided in the work papers for our 1989 Attrition filing.

Using the "meters served from overhead source" methodology established by the Commission in 1982, we have determined each city's and county's share of the 1989 annual allocation. A share of the allocation has been designated for the first time to the cities of Apple Valley, Hesperia, and Mission Viejo which incorporated during 1988. This information, as detailed in Exhibit A, will be communicated to the affected governmental entities upon the Commission's adoption of our 1989 allocation.

With the 1989 allocation, our cumulative 22-year Rule 20-A allocation is \$345,055,000.

Sincerely,

DMS:elf

MARGO WELLS  
MANAGER OF TARIFFS

June 8, 1990

TELEPHONE  
(818) 302-1945

Mr. Douglas M. Long  
Manager Chief, Energy Branch  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, CA 94102

Dear Mr. Long:

In November 1988, the Commission approved Southern California Edison's five-year plan for Rule 20-A allocations. This plan was for \$31.5 million in 1988 with escalation added for each subsequent year. Based upon this, the 1990 allocation would be \$34.5 million. However, with this letter Edison is establishing its allocation for 1990 at \$36.0 million, an increase of 9% over the 1989 allocation. This allocation has been discussed with Mr. D. B. Harrison of the League of California Cities, and complies with the Commission's Decision 90-05-032 in Case 8209.

The amount allocated to each city is the highest of the three methods, as set forth in the decision:

- Method 1 The amount allocated to each entity in 1989 on the basis of overhead source meters adjusted for new cities incorporated during 1989.
- Method 2 The total 1989 utility allocation allocated on the basis of current (April 1990) overhead source meters.
- Method 3 The total 1989 utility allocation allocated 50% on the basis of current overhead source meters and 50% on the basis of total meters.

Exhibit A details the allocation share assigned to each entity and indicates which method provided the highest allocation for each entity. New cities receiving an allocation for the first time are Diamond Bar, Laguna Niguel, Temecula, and Yucaipa.

Sincerely,

PAW:

MR. DOUGLAS M. LONG  
CHIEF, ENERGY BRANCH  
CALIFORNIA PUBLIC UTILITIES COMMISSION  
505 VAN NESS AVENUE  
SAN FRANCISCO, CA 94102

Dear Mr. Long:

Southern California Edison's 1991 Rule 20-A annual allocation has been computed to be \$37,750,000 by applying an inflationary factor of 4.78% to the 1990 allocation.

By Resolution No. E-3113, dated November 9, 1988, the Commission approved a five-year Rule 20-A allocation plan for Edison. That plan established \$31.5 million as the 1988 allocation and ordered Edison to escalate that amount in each subsequent year by an appropriate inflationary factor. However, due to the transition year formula prescribed by the Commission's Decision 90-05-032 in Case 8209, Edison's 1990 allocation represented a 9% increase which was greater than the required inflationary amount. Therefore, Edison's 1991 allocation exceeds by more than \$1.5 million the 1991 allocation called for in the five-year plan approved by the Commission in 1988.

The assignment of the 1991 allocation to the qualifying cities and counties detailed in Exhibit A complies with the methodology set forth in Edison's Rule 20, Section A. New cities receiving an allocation for the first time are Calimesa and Canyon Lake, both in Riverside County. As a result of these incorporations, a prorata portion of the County's 1990 base year allocation has been permanently transferred to the new cities in accordance with Rule 20, Section A, Part 2.c.

Sincerely,

PAW:

MR. DOUGLAS M. LONG  
CHIEF, ENERGY BRANCH  
CALIFORNIA PUBLIC UTILITIES COMMISSION  
505 VAN NESS AVENUE  
SAN FRANCISCO, CA 94102

Dear Mr. Long:

Southern California Edison's 1992 Rule 20-A annual allocation has been computed to be \$38,850,000 by applying an inflationary factor of 2.91% to the 1991 allocation.

By Resolution No. E-3113, dated November 9, 1988, the Commission approved a five-year Rule 20-A allocation plan for Edison. That plan established \$31.5 million as the 1988 allocation and ordered Edison to escalate that amount in each subsequent year by an appropriate inflationary factor. However, due to the transition year formula prescribed by the Commission's Decision 90-05-032 in Case 8209, Edison's 1990 allocation represented a 9% increase which was greater than the required inflationary amount. Therefore, Edison's 1992 allocation exceeds by more than \$1.5 million the 1992 allocation called for in the five-year plan approved by the Commission in 1988.

The assignment of the 1992 allocation to the qualifying cities and counties detailed in Exhibit A complies with the methodology set forth in Edison's Rule 20, Section A. New cities receiving an allocation for the first time are Murrieta - Riverside County, Malibu and Calabasas - Los Angeles County, Yucca Valley and Chino Hills - San Bernardino County, and Lake Forest and Laguna Hills - Orange County. As a result of these incorporations, a prorata portion of the County's 1990 base year allocation has been permanently transferred to the new cities in accordance with Rule 20, Section A, Part 2.c.

Sincerely,

Mr. Kevin Coughlan  
Chief, Energy Branch  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, California 94102

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, Edison has established its Rule 20.A allocation for overhead to underground conversions to be \$39,900,000 for 1993. The specific allocation for each city and county within Edison's service territory is contained in Exhibit A attached hereto.

The 1993 Rule 20.A allocation is the beginning of a new five-year allocation plan (1993-1997) and was established using the same criteria as in the previous five-year plan (1988-1992). The previous five-year plan was instituted by Resolution E-3113, dated November 9, 1988. Ordering Paragraph 2 of the Resolution stated:

SCE will modify its present five year plan to include an appropriate inflationary factor in developing its underground budget for the year 1989 through 1992, to ensure a budget of \$31,500,000 per year in constant dollars.

The inflation factor used by Edison to arrive at the Rule 20.A allocation each year is the Non-Labor Escalation Factor which is approved or revised by the Commission in Edison's General Rate Case or Attrition Year Applications. The approved Non-Labor Escalation Factor for 1993 is 2.7%. Edison believes using the same allocation criteria as established by Resolution E-3113 is appropriate at this time.

In a January 28, 1993 letter, Edison notified the League of California Cities (LCC) of its intention to continue the previous five-year allocation plan for the next five years. Also, informal discussions have taken place between Edison and the LCC concerning the new five-year plan. A formal meeting is expected to be held soon, between Edison and selected members of the LCC, before the LCC presents the plan to its full membership.

The allocations shown in Exhibit A were determined by distributing the total Rule 20.A allocation of \$39,900,000 for 1993 using the approved allocation method set forth in Rule 20.A.2.

If you have any questions concerning the Rule 20.A allocation for 1993, please contact Dave Sturn at (818) 302-2950.

December 1, 1993

Mr. Kevin Coughlan  
Energy Branch  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, California 94102

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, Edison has established its Rule 20.A allocation for Rule 20.A projects to be \$40,860,000 for 1994. The specific allocation for each city and county within Edison's service territory is contained in Exhibit A attached hereto.

The 1994 Rule 20.A allocation is the second-year of a five-year allocation plan (1993-1997) which uses an inflation factor in developing the total annual allocations each year of the plan. The inflation factor used by Edison to arrive at the Rule 20.A allocation for 1994 is the Non-Labor Escalation Factor of 2.41% as set forth in Edison's 1994 Attrition filing.

The allocations shown in Exhibit A were determined by distributing the total Rule 20.A allocation of \$40,860,000 for 1994 using the approved allocation method set forth in Rule 20.A.2.

If you have any questions concerning the Rule 20.A allocation for 1993, please contact Dave Sturn at (818) 302-2950.

Sincerely,

DMS:dms

~~December 6, 1994~~ REVISSED Allocation for  
3 cities & Orange Co.

NEW Revision "not" sent to  
CPUC. CHANGES to be reflected  
on 1996 Allocation Report  
Revised figures were used  
with cities in 1995.

Mr. Kevin Coughlan  
Energy Branch  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, California 94102-3298

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, Edison has established its Rule 20.A allocation for Rule 20.A projects to be \$42,140,000 for 1995. The specific allocation for each city and county within Edison's service territory is contained in Exhibit A attached hereto.

The 1995 Rule 20.A allocation is the third-year of a five-year allocation plan (1993-1997) which uses an inflation factor in developing the total annual allocations each year. The inflation factor used by Edison to arrive at the Rule 20.A allocation for 1995 is the Non-Labor Escalation Factor of 3.14% as set forth in Phase I of Edison's 1995 General Rate Case.

The allocations shown in Exhibit A were determined by distributing the total Rule 20.A allocation of \$42,140,000 for 1995 using the approved allocation method set forth in Rule 20.A.2.

If you have any questions concerning the Rule 20.A allocation for 1995, please contact Dave Sturm at (818) 302-2950.

Sincerely,

DMS:dms cc: Bill Gaffney, CACD, CPUC, S.F.

December 11, 1995

Mr. Kevin Coughlan  
Energy Branch  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, California 94102-3298

Dear Mr. Coughlan:

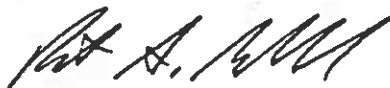

In accordance with Decision 73078 in Case 8209, Edison has established its Rule 20.A allocation for Rule 20.A projects to be \$43,360,000 for 1996. The specific allocation for each city and county within Edison's service territory is contained in Exhibit A attached hereto.

The 1996 Rule 20.A allocation is the fourth-year of a five-year allocation plan (1993-1997) which uses an inflation factor in developing the total annual allocations each year. The inflation factor used by Edison to arrive at the Rule 20.A allocation for 1996 is the Non-Labor Escalation Factor of 2.89% as set forth in Phase I of Edison's 1995 General Rate Case.

The allocations shown in Exhibit A were determined by distributing the total Rule 20.A allocation of \$43,360,000 for 1996 using the approved allocation method set forth in Rule 20.A.2.

If you have any questions concerning the Rule 20.A allocation for 1996, please contact Dave Sturm at (818) 302-2950.

Sincerely,

DMS:dms

December 16, 1996

Mr. Kevin Coughlan  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

SUBJECT: 1997 Rule 20A Allocation

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, Edison has established its Rule 20A allocation for Rule 20A projects to be \$44,153,488 for 1997. The specific allocation for each city and county within Edison's service territory is contained in Exhibit A attached hereto. (Please note, the figures in the report are rounded.)

The 1997 Rule 20A allocation is the fifth year of a five-year allocation plan (1993-1997) which uses an inflation factor in developing the total annual allocations each year. The inflation factor used by Edison to arrive at the Rule 20A allocation for 1997 is 1.83%. This factor represents the Consumer Price Index less a productivity factor as adopted by Commission Decision No. 96-09-092 in Application No. 93-12-029, which adopts a Nongeneration Performance Based Ratemaking Mechanism for Edison.

The allocations shown in Exhibit A were determined by distributing the total Rule 20A allocation of \$44,153,488 for 1997 using the approved allocation method set forth in Rule 20A.2.

If you have any questions concerning the Rule 20A allocation for 1997, please contact Kathy Muto at (818) 302-3981.

Sincerely,

A handwritten signature in black ink that reads "Peter S. Goeddel" followed by a stylized flourish.

Craig M. Keen  
Supervisor of Tariffs

December 10, 1997

Mr. Kevin Coughlan  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: 1998 Rule 20, Section A (Rule 20A) Allocation

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, Edison has established its Rule 20A allocation for Rule 20A projects to be \$44,726,989. The specific allocation for each city and county within Edison's service territory is contained in Exhibit A attached hereto. (Please note, the figures in the report are rounded.)

The 1998 Rule 20A allocation is the beginning of a new five-year allocation plan (1998 - 2002) and was established using similar criteria as in the previous five-year plan (1993 - 1997). The inflation factor used by Edison to arrive at the Rule 20A allocation for 1998 is 1.30%. This factor represents the Consumer Price Index less a productivity factor as adopted by Commission Decision No. 96-09-092 in Application No. 93-12-029, which adopts a Nongeneration Performance Based Ratemaking Mechanism for Edison.

In a December 8, 1997 letter, Edison notified the League of California Cities (LCC) of its intention to establish a new five-year plan. Also, informal discussions are scheduled to take place between Edison and the LCC concerning the new five-year plan.

The allocations shown in Exhibit A were determined by distributing the total Rule 20A allocation of \$44,726,989 for 1998 using the approved allocation method set forth in Rule 20A.2.

If you have any questions concerning the Rule 20A allocation for 1998, please contact Kathy Muto at (626) 302-3981.

Sincerely,

Enclosures

Re: 1999 Rule 20, Section A (Rule 20A) Allocation

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, SCE has established its Rule 20A allocation for Rule 20A projects for 1999 to be \$45,218,985. The specific allocation for each city and county within SCE's service territory is contained in Exhibit A attached hereto. (Please note, the figures in the report are rounded.)

The 1999 Rule 20A allocation is in its second year of a new five-year allocation plan (1998- 2002) and was established using similar criteria as in the previous five-year plan (1993-1997).<sup>1</sup> The inflation factor used by SCE to arrive at the Rule 20A allocation for 1999 is 1.1%. This factor represents the Consumer Price Index less a productivity factor as adopted by Commission Decision No. 96-09-092 in Application No. 93-12-029, which also provided for the adaptation of a nongeneration Performance-Based Ratemaking (PBR) to a distribution only PBR after the unbundling of SCE's distribution revenue requirement.

The allocations shown in Exhibit A were determined by distributing the total Rule 20A allocation of \$45,218,985 for 1999 using the approved allocation method set forth in Rule 20A.2.

If you have any questions concerning the Rule 20A allocation for 1999, please contact Dara Morgan at (626) 302-2086.

Sincerely,

Enclosures

SOUTHERN CALIFORNIA EDISON  
99ALLOCRPT  
TASALAS  
DEC. 14,1998

December 13, 1999

Mr. Kevin Coughlan  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: 2000 Rule 20, Section A (Rule 20A) Allocation

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, SCE has established its Rule 20A allocation for Rule 20A projects for 2000 to be \$46,124,000. The specific allocation for each city and county within SCE's service territory is contained in Exhibit A attached hereto. (Please note, the figures in the report are rounded.)

The 2000 Rule 20A allocation is in its third year of a new five-year allocation plan (1998- 2002) and was established using similar criteria as in the previous five-year plan (1993-1997).<sup>1</sup> The inflation factor used by SCE to arrive at the Rule 20A allocation for 2000 is 1.6%.<sup>2</sup> This factor represents the Consumer Price Index less a productivity factor as adopted by Commission Decision No. 96-09-092 in Application No. 93-12-029, which also provided for the adaptation of a nongeneration Performance-Based Ratemaking (PBR) to a distribution only PBR after the unbundling of SCE's distribution revenue requirement.

The allocations shown in Exhibit A were determined by distributing the total Rule 20A allocation of \$46,124,000 for 2000 using the approved allocation method set forth in Section A.2 of Rule 20.

If you have any questions concerning the Rule 20A allocation for 2000, please contact Lisa Ornelas at (626) 302-3981.

Sincerely,

*Craig M. Keen*

December 13, 2000

Mr. Kevin Coughlan  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: 2001 Rule 20, Section A (Rule 20A) Allocation

Dear Mr. Coughlan:

In accordance with Decision 73078 in Case 8209, SCE has established its Rule 20A allocation for Rule 20A projects for 2001 to be \$46,908,000. The specific allocations for each city and county within SCE's service territory are contained in Exhibit A attached hereto. (Please note, the figures in the report are rounded.)

The 2001 Rule 20A allocation is in its fourth year of a new five-year allocation plan (1998- 2002) and was established using similar criteria as in the previous five-year plan (1993-1997).<sup>1</sup> The inflation factor used by SCE to arrive at the Rule 20A allocation for 2001 is 1.6%.<sup>2</sup> This factor represents the Consumer Price Index less a productivity factor as adopted by Commission Decision No. 96-09-092 in Application No. 93-12-029, which also provided for the adaptation of a nongeneration Performance-Based Ratemaking (PBR) to a distribution-only PBR after the unbundling of SCE's distribution revenue requirement.

The allocations shown in Exhibit A were determined by distributing the total Rule 20A figure of \$46,908,000 for 2001 using the approved allocation method set forth in Section A.2 of Rule 20.

SCE submits this document in advance of a Commission decision in R.00-01-005 and the Commission's disposition of other matters affecting SCE that would directly impact its proposed spending for this program. SCE reserves the right to adjust the total 2001 proposed program commitment in light of the aforementioned.

If you have any questions concerning the Rule 20A allocation for 2001, please contact Lisa Ornelas at (626) 302-3981.

Sincerely,

CMK:rv:R1e20AAllocLtr.doc

Craig M. Keen  
Supervisor of Tariffs

December 13, 2001

Mr. Jerry Royer  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: 2002 Rule 20, Section A (Rule 20A) Allocation

Dear Mr. Royer:

In accordance with the Five Year Plan, SCE has established its allocation for Rule 20A projects for 2002. The specific allocations for each city and county within SCE's service territory are contained in Exhibit A attached hereto. (Please note, the figures in the report are rounded.)

The 2002 Rule 20A allocation is for the fifth and final year of the current five-year allocation plan (1998- 2002)<sup>1</sup>. The inflation factor used by SCE to arrive at the Rule 20A allocation for 2002 is 1.8%.<sup>2</sup> This factor represents the Consumer Price Index less a productivity factor as adopted by Commission Decision No. 96-09-092 in Application No. 93-12-029, which also provided for the adaptation of a nongeneration Performance-Based Ratemaking (PBR) to a distribution-only PBR after the unbundling of SCE's distribution revenue requirement.

The allocations shown in Exhibit A were determined by distributing the total Rule 20A escalated figure determined consistent with Resolution E-3113 for 2002 using the approved allocation method set forth in Section A.2 of Rule 20.

If you have any questions concerning the Rule 20A allocation for 2002, please contact Lisa Ornelas at (626) 302-3981.

Sincerely,

A handwritten signature in cursive script that reads "Craig M. Keen".

Craig M. Keen  
Supervisor of Tariffs

Enclosures

<sup>1</sup> In a December 8, 1997 letter, SCE notified the League of California Cities (LCC) of its intention to establish a new five-year plan.

<sup>2</sup> Escalation Factors are contained within five-year plan document.

December 13, 2002

Mr. Jerry Royer  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2003 Rule 20A Program

Dear Mr. Royer:

As required by Decision 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2003 and the allocations of that amount to the 192 local governments within its service territory. Those allocations are set forth in Exhibit "A" attached hereto. SCE's total budget for 2003 is \$47.012 million.

Ordering Paragraph 6 of Decision 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for the replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

The coming year 2003 marks SCE's return to General Rate Case ("GRC") procedures for reporting capital spending plans, as well as the first year following the end of the last Five-Year Plan. Though the figure set forth in SCE's GRC workpapers, SCE Exhibit 4, Volume 3, Chapter IV, pp. 165-178, for Rule 20A conversions in 2003 is \$44.314 million, that figure includes only certain loadings, including Pension & Benefits estimates, while the figure of \$47.012 million includes estimates for all loadings including Administrative & General. SCE anticipates escalating this 2003 figure in subsequent years, as directed or informed by the Commission in its final order in SCE's GRC.

The allocations shown in Exhibit "A" were determined by distributing the total Rule 20A figure of \$47.012 using the approved allocation methodology set forth in Section A.2 of Rule 20.

If you have any questions concerning the allocation for 2003, please contact Lisa Ornelas at (626) 302-3981.

Very truly yours,

Martin Collette  
Manager of Pricing and Tariffs

Manager of Tariffs & Advice  
Letters

December 15, 2003

Mr. Jerry Royer  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2004 Rule 20A Program

Dear Mr. Royer:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2004 and the allocations of that amount to the 204 local governments within its service territory. Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2004 is \$48.19 million, an increase of 2.5 percent over the 2003 budget. This amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The allocations shown in Exhibit "A" were determined by distributing the total 2004 Rule 20A budget of \$48.19 million using the approved allocation methodology set forth in Section A.2 of Rule 20. One component of the calculation used in the 2004 allocation process has been revised over that from 2003 to address an observed anomaly in the overhead-served meter count. While this revision did not produce significant changes in the

December 15, 2003

Page 2

allocations, SCE will undertake a further validation process in 2004 and expects to have that process concluded prior to transmitting its Rule 20A budget and allocations for 2005.

If you have any questions concerning the allocation for 2004, please contact Lisa Ornelas at (626) 302-3981.

Very truly yours,

Craig M. Keen

**Craig M. Keen**  
Manager of Tariffs and Advice  
Letters

December 13, 2004

Mr. Jerry Royer  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2005 Rule 20A Program

Dear Mr. Royer:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2005 and the allocations of that amount to the 204 local governments within its service territory. Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2005 is \$57,356,172. This amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The allocations shown in Exhibit "A" were determined by distributing the total 2005 Rule 20A budget of \$57,356,172 using the approved allocation methodology set forth in Section A.2 of Rule 20.

If you have any questions concerning the allocation for 2005, please contact Lisa Ornelas at (626) 302-3981.

Very truly yours,

A handwritten signature in cursive script that reads "Craig M. Keen".

Craig M. Keen  
Manager of Tariffs & Advice Letters

December 12, 2005

Mr. Brain Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2006 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2006 and the allocations of that amount to the 204 local governments within its service territory identified herein. Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

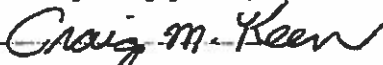

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2006 is \$48,657,000. This amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The allocations shown in Exhibit "A" were determined by distributing the total 2006 Rule 20A budget of \$48,657,000 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20.

If you have any questions concerning the allocation for 2006, please contact Lisa Ornelas at (626) 302-3981.

Very truly yours,

Craig M. Keen  
Manager of Tariffs & Advice Letters

December 13, 2006

Mr. Brian Schumacher  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2007 Rule 20A Program

Dear Mr. Schumacher:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2007 and the allocations of that amount to the 204 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

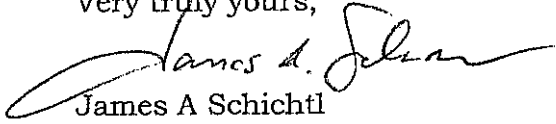

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2007 is \$40,974,197. This amount includes estimates for all loadings including Administrative & General. SCE has based the 2007 budget for allocation on an estimate of resources available for undergrounding, balanced with other priorities driven by load and customer growth. Commission action or other circumstances may necessitate a revision to this figure.

The figures shown in Exhibit "A" were determined by allocating the total 2007 Rule 20A budget of \$40,974,197 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2007, please contact Harold McCarthy at (626) 302-3981.

Very truly yours,

A handwritten signature in cursive script, appearing to read "James A. Schichtl".

December 13, 2007

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2008 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2008 and the allocations of that amount to the 204 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2008 is \$41,706,426. This amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The figures shown in Exhibit "A" were determined by allocating the total 2008 Rule 20A budget of \$41,706,426 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2008, please contact Harold McCarthy at (626) 302-3981.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

December 13, 2008

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2009 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2009 and the allocations of that amount to the 206 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

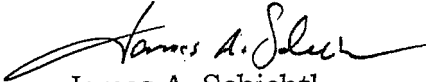

SCE's total proposed Rule 20A budget for 2009 is \$33,565,946. The amount also includes estimates for all loadings including Administrative & General. SCE will not set its actual budget for 2009 until a final Phase 1 GRC decision is issued. SCE requests the ability to resubmit with the Commission a revised Rule 20A budget and amounts allocated for 2009 when the budget is final.

The figures shown in Exhibit "A" were determined by allocating the total 2009 Rule 20A budget of \$33,565,946 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2009, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

December 10, 2009

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2010 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2010 and the allocations of that amount to the 206 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

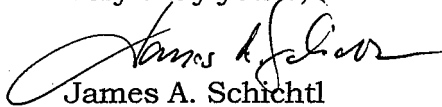

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2010 is \$33,515,671. The amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2010 budget for Rule 20A conversions is based on the 2009 GRC authorized amount plus escalation.

The figures shown in Exhibit "A" were determined by allocating the total 2010 Rule 20A budget of \$33,515,671 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2010, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

Re: Southern California Edison 2011 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2011 and the allocations of that amount to the 207 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

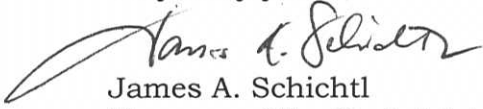

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2011 is \$34,107,143. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2011 budget for Rule 20A conversions is based on the 2010 Rule 20A budgeted amount plus escalation, and is consistent with SCE's 2012 GRC request.

The figures shown in Exhibit "A" were determined by allocating the total 2011 Rule 20A budget of \$34,107,143 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2011, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

James A. Schichtl

---

December 13, 2011

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2012 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2012 and the allocations of that amount to the 208 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2012 is \$24,489,954. The amount also includes estimates for all loadings including Administrative & General expenses. SCE will not set its final budget for 2012 until a final decision in Phase 1 of its 2012 GRC is issued. SCE's proposed 2012 Rule 20A budget is based on SCE's current expectations regarding the level of Rule 20A expenditures feasible in 2012. SCE requests the ability to resubmit to the Commission a revised 2012 Rule 20A budget and amounts allocated to cities and counties when the budget is final.

The figures shown in Exhibit "A" were determined by allocating the total 2012 Rule 20A budget of \$24,489,954 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

Application of the allocation methodology as set forth in Section A.2.b of Rule 20 which calculates allocations as a change to the 1990 base results in negative allocations for the cities of Chino Hills, Laguna Hills, Lake Forest, Jurupa Valley, Murietta and Riverside. Allocations for these cities for 2012 were consequently set to zero, which results in an increase of \$66,134 in SCE's total proposed 2012 budget.

If you have any questions concerning the allocation for 2012, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

<sup>i</sup> Application of the allocation methodology as set forth in Section A.2.b of Rule 20 utilizing 1990 as the base allocation resulted in negative allocations for the cities of Chino Hills, Laguna Hills, Lake Forest, Jurupa Valley, Murrieta and Riverside. Allocations to these cities for 2012 were consequently set to zero.

---

December 13, 2012

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2013 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision (D.)73078, Southern California Edison Company (SCE) herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2013 and the allocations of that amount to the 208 cities and counties within its service territory, identified herein, within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of D.73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2013 is \$37,800,176. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2013 budget for Rule 20A conversions is based on the 2012 GRC authorized amount plus escalation.<sup>1</sup>

The figures shown in Exhibit "A" were determined by allocating the total 2013 Rule 20A budget of \$37,800,176 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

---

<sup>1</sup> See page 166 of D.12-11-051.

If you have any questions concerning the allocation for 2013, please contact Amy Liu at (626) 302-4109.

Very truly yours,

Lisa Vellanoweth  
Manager of Tariffs

December 13, 2013

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2014 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision (D.)73078, Southern California Edison Company (SCE) herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2014 and the allocations of that amount to the 208 cities and counties within its service territory, identified herein, within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of D.73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2014 is \$39,360,572. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2014 budget for Rule 20A conversions is based on the 2013 budgeted amount plus escalation, and is consistent with SCE's 2015 GRC request<sup>1</sup>.

The figures shown in Exhibit "A" were determined by allocating the total 2014 Rule 20A budget of \$39,360,572 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

---

<sup>1</sup> SCE's 2015 GRC Application, SCE-03, Vol. 05, Page 58

If you have any questions concerning the allocation for 2014, please contact Amy Liu at (626) 302-4109.

Very truly yours,

Lisa Vellanoweth  
Manager of Tariffs

December 12, 2014

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2015 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision (D.)73078, Southern California Edison Company (SCE) herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2015 and the allocations of that amount to the 208 cities and counties within its service territory, identified herein, within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of D.73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2015 is \$40,000,474. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2015 budget for Rule 20A conversions is based on the 2014 budgeted amount plus escalation, and is consistent with SCE's 2015 GRC request.<sup>1</sup>

The figures shown in Exhibit "A" were determined by allocating the total 2015 Rule 20A budget of \$40,000,474 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

---

<sup>1</sup> SCE's 2015 GRC Application, SCE-03, Vol. 05, Page 58.

If you have any questions concerning the allocation for 2015, please contact Amy Liu at (626) 302-4109.

Very truly yours,

  
Lisa Vellanoweth  
Manager of Tariffs

**Darrah Morgan**  
Manager of Residential Tariffs  
and Advice Letters

---

December 11, 2015

Mr. Tim Sullivan  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2016 Rule 20A Program

Dear Mr. Sullivan:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2016 and the allocations of that amount to the 208 cities and counties within its service territory which it provides retail electric service via overhead-served meters. These allocations are set forth in Exhibit "A" and attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

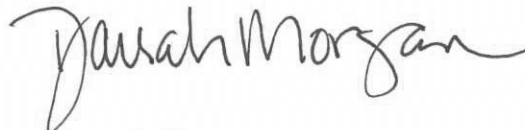

SCE's total proposed Rule 20A budget for 2016 is \$28,382,173. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The figures shown in Exhibit "A" were determined by allocating the total 2016 Rule 20A budget of \$28,382,173 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included within this list are cities served primarily by publicly-owned electric utilities, but which SCE continues to provide some residual retail service.

Application of the allocation methodology as set forth in Section A.2.b of Rule 20 which calculates allocations as a change to the 1990 base results in negative allocations for the cities of Laguna Hills, Lake Forest, Jurupa Valley and the city of Riverside. Allocations for these four cities for 2016 were consequently increased to zero, and SCE's total proposed 2016 budget increased by the same amount to a total allocation of \$28,407,542.

If you have any questions concerning the allocation for 2016, please contact Amy Liu at (626) 302-4109.

Sincerely,

Darrah Morgan  
Manager of Residential Tariffs and  
Advice Letters

<sup>i</sup> Application of the allocation methodology as set forth in Section A.2.b of Rule 20 utilizing 1990 as the base allocation resulted in negative allocations for the cities of Laguna Hills, Lake Forest, Jurupa Valley, and Riverside. Allocations to these cities for 2016 were consequently set to zero.

December 13, 2016

Mr. Timothy Sullivan  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison Company's 2017 Rule 20A Program  
Budget and Allocations

Dear Mr. Sullivan:

As required by Decision (D.) 73078, Southern California Edison Company (SCE) hereby submits to the California Public Utilities Commission (Commission or CPUC) its proposed budget for Rule 20A conversions for 2017 and the allocations of that amount to the 208 cities and counties within its service territory where SCE provides retail electric service via overhead-served meters.<sup>1</sup> These allocations are set forth in Exhibit "A" attached hereto.

SCE's total proposed Rule 20A budget for 2017 is \$26,092,044. This amount includes estimates for all loadings including administrative and general expenses. Commission action or other circumstances may necessitate a revision to this figure.

The figures shown in Exhibit "A" were determined by allocating the total 2017 Rule 20A budget of \$26,092,044 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities, but within which SCE continues to provide some residual retail service.

Application of the allocation methodology as set forth in Section A.2.b of Rule 20, which calculates allocations as a change to the 1990 base, resulted in negative allocations for the cities of Chino Hills, Laguna Hills, Lake Forest, Jurupa Valley and the city of Riverside, the total of which is \$48,883. Allocations for these five (5) cities for 2017 were consequently increased to zero,

---

<sup>1</sup> Ordering Paragraph 6 of D.73078 states in pertinent part that "[e]ach respondent electric utility shall file with the Commission...annually...a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule."

and SCE's total proposed 2017 budget of \$26,092,044 is increased by the \$48,883 to a total allocation of \$26,140,927.

If you have any questions concerning the allocation for 2017, please contact Shiela Linao at (626) 302-4506 or by electronic mail at [Shiela.Linao@sce.com](mailto:Shiela.Linao@sce.com) or Tony Mathis at (714) 973-5466 or by electronic mail at [Tony.Mathis@sce.com](mailto:Tony.Mathis@sce.com).

Sincerely,

Douglas Snow  
Director of CPUC Revenue Requirements and Tariffs

December 13, 2017

Mr. Timothy Sullivan  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison Company's 2018 Rule 20A Program  
Budget and Allocations

Dear Mr. Sullivan:

As required by Decision (D.) 73078, Southern California Edison Company (SCE) hereby submits to the California Public Utilities Commission (Commission or CPUC) its proposed budget for Rule 20A conversions for 2018 and the allocations of that amount to the 208 cities and counties within its service territory where SCE provides retail electric service via overhead-served meters.<sup>1</sup> These allocations are set forth in Exhibit "A" attached hereto.

SCE's total proposed Rule 20A budget for 2018 is \$28,021,375. This amount includes estimates for all loadings including administrative and general expenses. Commission action or other circumstances may necessitate a revision to this figure.

The figures shown in Exhibit "A" were determined by allocating the total 2018 Rule 20A budget of \$28,021,375 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. The 2018 Rule 20A budget is based on the forecast included in SCE's 2018 General Rate Case, Application 16-09-001, and includes corporate overhead loadings. Included in this list are cities served primarily by publicly-owned electric utilities, but within which SCE continues to provide some residual retail service.

---

<sup>1</sup> Ordering Paragraph 6 of D.73078 states in pertinent part that "[e]ach respondent electric utility shall file with the Commission...annually...a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule."

Application of the allocation methodology as set forth in Section A.2.b of Rule 20, which calculates allocations as a change to the 1990 base, resulted in negative allocations for the cities of Laguna Hills, Lake Forest, Jurupa Valley and Riverside, the total of which is \$30,152. Allocations for these four (4) cities for 2018 were consequently increased to zero, and SCE's total proposed 2018 budget increased by \$30,152 to a total allocation of \$28,051,527.

If you have any questions concerning the allocation for 2018, please contact Shiela Linao at (626) 302-4506 or by electronic mail at [Shiela.Linao@sce.com](mailto:Shiela.Linao@sce.com) or Tony Mathis at (714) 973-5466 or by electronic mail at [Tony.Mathis@sce.com](mailto:Tony.Mathis@sce.com).

Sincerely,

Douglas Snow  
Director of CPUC Revenue Requirements and Tariffs

# Energy Division Central Files Document Coversheet

**Directions:** Submit all documents and submittal questions to Energy Division Central Files via email [EnergyDivisionCentralFiles@cpuc.ca.gov](mailto:EnergyDivisionCentralFiles@cpuc.ca.gov)

1. Fill out coversheet completely. Coversheet can be embedded as page 1 of the electronic compliance filing, or can be submitted as a separate document that is attached to the email that delivers the compliance filing.
2. If the coversheet is submitted as separate document, please name the coversheet file with the same document name used in your primary document (see Section A) + plus the word “cov” (for coversheet). For example, the name of the coversheet file will be something like: **West Coast Gas Company Monthly Gas Report 201602 COV.docx**
3. If the document is confidential add CONF (for confidential). For example, the name of the coversheet file will be something like: **West Coast Gas Company Monthly Gas Report 201602 CONF.docx** and **West Coast Gas Company Monthly Gas Report 201602 COV CONF.docx**
4. All documents are required to be submitted in an electronically *searchable* format.
5. Documents need to reference the reason for the mandate that ordered the filing in Section B or C. If you are unable to reference a proceeding or explain the origin of your filing, please contact Energy Division Central Files.
6. To find a proceeding number (if you only have a decision number), go to <http://docs.cpuc.ca.gov/DecisionsSearchForm.aspx>; enter the decision number, and the results shown include the proceeding number.

NOTE: It is Energy Division’s preference to have document components combined into one PDF document with the top sheets being the cover sheet, the next an executive’s letter (as applicable), and the compliance data as the third element.

## A. Document Name

Today’s Date: 2/9/2018

1. Utility Name: Southern California Edison
2. Document Submission Frequency (Annual, Semi-Annual, YTD, Quarterly, Monthly, Weekly, Ad-hoc, Once, Other Event): Annual
3. Report Name: Rule 20A Program Budget and Allocations
4. Reporting Interval (for this submission, e.g. 2015 Q1 – that data date): 2005 - 2018
5. Document File Name (format as 1+2 + 3 + 4): Southern California Edison Annual Rule 20A Program Budget and Allocations 2005 - 2018
6. Append the confidential and/or cover sheet notation, as appropriate. N/A

Sample Document Names:

*Utility Name + Submittal Frequency + Report Name + Year + Reporting Interval + (COV or CONF or both or neither)*

<i>SCE Annual Procurement Report 2015</i>	<i>West Coast Gas Company Monthly Gas Report 201602 CONF</i>
<i>SDG&amp;E Quarterly DR Forecast 2015Q1</i>	<i>West Coast Gas Company Daily Gas Report 20160230 COV</i>
<i>West Coast Gas Company Monthly Gas Report 201602</i>	<i>West Coast Gas Company Monthly Gas Report 201602 COV CONF</i>
<i>West Coast Gas Company Daily Gas Report 20160230</i>	<i>SCE Annual Procurement Report 2015 LTR</i>

7. Identify whether this filing is  original or  revision to a previous filing.
  - a. If revision, identify date of the original filing:

# Energy Division Central Files Document Coversheet

## B. Documents Related to a Proceeding

All submittals should reference both a proceeding and a decision, if applicable. If not applicable, leave blank and fill out Section C.

1. Proceeding Number (starts with R, I, C, A, or P plus 7 numbers): N/A
2. Decision Number (starts with D plus 7 numbers): D.73078
3. Ordering Paragraph (OP) Number from the decision: 6

## C. Documents Submitted as Requested by Other Requirements

If the document submitted is in compliance with something other than a proceeding, (e.g. Resolution, Ruling, Staff Letter, Public Utilities Code, or sender's own motion), please explain: Southern California Edison (SCE) provides this report annually pursuant to Decision 73078. Energy Division staff requests that SCE submit electronic copies of the Rule 20A Program Budget and Allocations from 2005 to 2018.

## D. Document Summary

Provide a Document Summary that explains why this report is being filed with the Energy Division. This information is often contained in the cover letter, introduction, or executive summary.

As required by Decision 73078, Southern California Edison submits to the California Public Utilities Commission its proposed budget for Rule 20A conversions for each year and the allocations of that amount to the cities and counties within its service territory where SCE provides retail electric service via overhead-served meters.

## E. Sender Contact Information

1. Sender Name: Annette Tran
2. Sender Organization: Southern California Edison
3. Sender Phone: 626-302-1811
4. Sender Email: Annette.Tran@sce.com

## F. Confidentiality

1. Is this document confidential?  No  Yes
  - a. If Yes, provide an explanation of why confidentiality is claimed and identify the expiration of the confidentiality designation (e.g. Confidential until December 31, 2020), and a signed declaration of confidentiality.

## G. CPUC Routing

Energy Division's Director, Ed Randolph, requests that you not copy him on filings sent to Energy Division Central Files. Identify below any Commission staff that were copied on the submittal of this document.

1. Names of Commission staff that sender copied on the submittal of this Document: Jonathan Frost

Manager of Tariffs and Advice  
Letters

December 13, 2004

Mr. Jerry Royer  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2005 Rule 20A Program

Dear Mr. Royer:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2005 and the allocations of that amount to the 204 local governments within its service territory. Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2005 is \$57,356,172. This amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The allocations shown in Exhibit "A" were determined by distributing the total 2005 Rule 20A budget of \$57,356,172 using the approved allocation methodology set forth in Section A.2 of Rule 20.

If you have any questions concerning the allocation for 2005, please contact Lisa Ornelas at (626) 302-3981.

Very truly yours,

A handwritten signature in cursive script that reads "Craig M. Keen".

Craig M. Keen

December 12, 2005

Mr. Brain Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2006 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2006 and the allocations of that amount to the 204 local governments within its service territory identified herein. Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

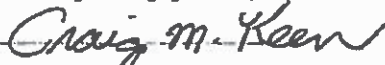

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2006 is \$48,657,000. This amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The allocations shown in Exhibit "A" were determined by distributing the total 2006 Rule 20A budget of \$48,657,000 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20.

If you have any questions concerning the allocation for 2006, please contact Lisa Ornelas at (626) 302-3981.

Very truly yours,

Craig M. Keen  
Manager of Tariffs & Advice Letters

December 13, 2006

Mr. Brian Schumacher  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2007 Rule 20A Program

Dear Mr. Schumacher:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2007 and the allocations of that amount to the 204 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

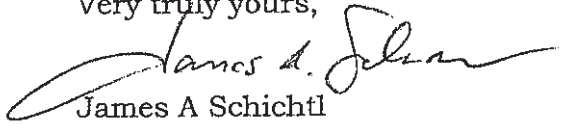

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2007 is \$40,974,197. This amount includes estimates for all loadings including Administrative & General. SCE has based the 2007 budget for allocation on an estimate of resources available for undergrounding, balanced with other priorities driven by load and customer growth. Commission action or other circumstances may necessitate a revision to this figure.

The figures shown in Exhibit "A" were determined by allocating the total 2007 Rule 20A budget of \$40,974,197 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2007, please contact  
Harold McCarthy at (626) 302-3981.

Very truly yours,

A handwritten signature in cursive script, appearing to read "James A. Schichtl". The signature is written in black ink and is positioned above the printed name and title.

December 13, 2007

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2008 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its budget for Rule 20A conversions for 2008 and the allocations of that amount to the 204 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total Rule 20A budget for 2008 is \$41,706,426. This amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure.

The figures shown in Exhibit "A" were determined by allocating the total 2008 Rule 20A budget of \$41,706,426 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2008, please contact Harold McCarthy at (626) 302-3981.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2009 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2009 and the allocations of that amount to the 206 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

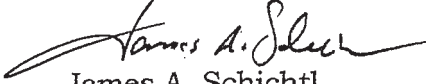

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2009 is \$33,565,946. The amount also includes estimates for all loadings including Administrative & General. SCE will not set its actual budget for 2009 until a final Phase 1 GRC decision is issued. SCE requests the ability to resubmit with the Commission a revised Rule 20A budget and amounts allocated for 2009 when the budget is final.

The figures shown in Exhibit "A" were determined by allocating the total 2009 Rule 20A budget of \$33,565,946 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2009, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

SOUTHERN CALIFORNIA  
**EDISON**

An EDISON INTERNATIONAL Company

**James A Schichtl**  
Manager of Tariffs and Advice  
Letters

December 10, 2009

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2010 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2010 and the allocations of that amount to the 206 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

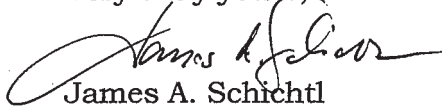

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2010 is \$33,515,671. The amount includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2010 budget for Rule 20A conversions is based on the 2009 GRC authorized amount plus escalation.

The figures shown in Exhibit "A" were determined by allocating the total 2010 Rule 20A budget of \$33,515,671 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2010, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

December 13, 2010

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2011 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2011 and the allocations of that amount to the 207 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

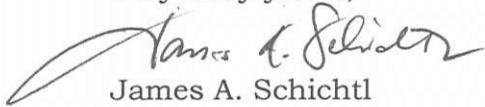

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2011 is \$34,107,143. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2011 budget for Rule 20A conversions is based on the 2010 Rule 20A budgeted amount plus escalation, and is consistent with SCE's 2012 GRC request.

The figures shown in Exhibit "A" were determined by allocating the total 2011 Rule 20A budget of \$34,107,143 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

If you have any questions concerning the allocation for 2011, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

A handwritten signature in cursive script, appearing to read "James A. Schichtl".

---

December 13, 2011

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2012 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision No. 73078, Southern California Edison Company ("SCE") herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2012 and the allocations of that amount to the 208 cities and counties within its service territory identified herein within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of Decision No. 73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2012 is \$24,489,954. The amount also includes estimates for all loadings including Administrative & General expenses. SCE will not set its final budget for 2012 until a final decision in Phase 1 of its 2012 GRC is issued. SCE's proposed 2012 Rule 20A budget is based on SCE's current expectations regarding the level of Rule 20A expenditures feasible in 2012. SCE requests the ability to resubmit to the Commission a revised 2012 Rule 20A budget and amounts allocated to cities and counties when the budget is final.

The figures shown in Exhibit "A" were determined by allocating the total 2012 Rule 20A budget of \$24,489,954 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

Application of the allocation methodology as set forth in Section A.2.b of Rule 20 which calculates allocations as a change to the 1990 base results in negative allocations for the cities of Chino Hills, Laguna Hills, Lake Forest, Jurupa Valley, Murietta and Riverside. Allocations for these cities for 2012 were consequently set to zero, which results in an increase of \$66,134 in SCE's total proposed 2012 budget.

If you have any questions concerning the allocation for 2012, please contact Ingrid Vigh at (626) 302-7383.

Very truly yours,

James A. Schichtl  
Manager of Tariffs & Advice Letters

<sup>i</sup> Application of the allocation methodology as set forth in Section A.2.b of Rule 20 utilizing 1990 as the base allocation resulted in negative allocations for the cities of Chino Hills, Laguna Hills, Lake Forest, Jurupa Valley, Murrieta and Riverside. Allocations to these cities for 2012 were consequently set to zero.

---

December 13, 2012

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2013 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision (D.)73078, Southern California Edison Company (SCE) herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2013 and the allocations of that amount to the 208 cities and counties within its service territory, identified herein, within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of D.73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2013 is \$37,800,176. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2013 budget for Rule 20A conversions is based on the 2012 GRC authorized amount plus escalation.<sup>1</sup>

The figures shown in Exhibit "A" were determined by allocating the total 2013 Rule 20A budget of \$37,800,176 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

---

<sup>1</sup> See page 166 of D.12-11-051.

If you have any questions concerning the allocation for 2013, please contact Amy Liu at (626) 302-4109.

Very truly yours,

Lisa Vellanoweth  
Manager of Tariffs

December 13, 2013

Mr. Brian Schumaker  
California Public Utilities Commission  
Energy Division  
505 Van Ness Avenue  
San Francisco, CA 94102-3298

Re: Southern California Edison 2014 Rule 20A Program

Dear Mr. Schumaker:

As required by Decision (D.)73078, Southern California Edison Company (SCE) herewith transmits to the Commission a report of its proposed budget for Rule 20A conversions for 2014 and the allocations of that amount to the 208 cities and counties within its service territory, identified herein, within which it provides retail electric service via overhead-served meters.

Those allocations are set forth in Exhibit "A" attached hereto.

Ordering Paragraph 6 of D.73078 states in pertinent part as follows:

6. Each respondent electric utility shall file with the Commission . . . annually . . . a statement setting forth its annual budgeted amount for replacement of overhead with underground facilities, together with the amounts allocated to each city and unincorporated area under Section A of the rule . . .

SCE's total proposed Rule 20A budget for 2014 is \$39,360,572. The amount also includes estimates for all loadings including Administrative & General. Commission action or other circumstances may necessitate a revision to this figure. SCE's 2014 budget for Rule 20A conversions is based on the 2013 budgeted amount plus escalation, and is consistent with SCE's 2015 GRC request<sup>1</sup>.

The figures shown in Exhibit "A" were determined by allocating the total 2014 Rule 20A budget of \$39,360,572 to the listed local governments using the approved allocation methodology set forth in Section A.2 of Rule 20. Included in this list are cities served primarily by publicly-owned electric utilities but within which SCE continues to provide some residual retail service.

---

<sup>1</sup> SCE's 2015 GRC Application, SCE-03, Vol. 05, Page 58

If you have any questions concerning the allocation for 2014, please contact Amy Liu at (626) 302-4109.

Very truly yours,

Lisa Vellanoweth  
Manager of Tariffs
