Overview:

In [Decision 20-05-053](#), approving PG&E's reorganization plan resolving the insolvency proceeding, the Commission ordered PG&E to file an application for regional restructuring. Regional restructuring is one governance change the Commission ordered PG&E to implement as a condition of approval of its reorganization plan. The Commission found that regional restructuring has the potential to improve PG&E's safety performance and responsiveness to local communities. In compliance with the Decision, PG&E filed an application with a proposed regionalization approach on June 30, 2020. On November 20, 2020, CPUC staff held a workshop for PG&E to present their proposal and receive feedback from parties. On December 16, 2020, parties filed

comments on PG&E's proposal and information presented at the workshop. On February 26, 2021, PG&E is to file an updated regionalization proposal incorporating party feedback.

Objective:

The primary purpose of this workshop is for PG&E to present the new and modified elements from its updated regionalization proposal which will be filed on February 26, 2021. This workshop gives parties an opportunity to (1) receive a thorough briefing on the elements of the revised proposal in order to inform their subsequent filing of comments on the revised proposal, and (2) provide real time input and feedback to PG&E on the updated proposal. Pursuant to Administrative Law Judge Brian Stevens' December 23, 2020, [email ruling](#), comments on the updated proposal will be filed on April 2, 2021, and reply comments will be filed on April 9, 2021.
