

California Public Utilities Commission

CREATING A LOW CARBON FUTURE FOR CALIFORNIA COMMUNITIES: Benefits of Electrification and How to get There

Please join the CPUC on Wednesday, March 22, 2023, from 10 a.m. – 11:30 a.m. for an informational webinar explaining how California is leading the way in decarbonizing our communities.

CPUC Energy Division staff will discuss current and upcoming programs and policies, including some from other state agencies. Invited speakers will share information on current popularity and benefits of building electrification in California communities and local governments, the health and cost benefits for residents, and how to get started on the path to decarbonizing your own community. Speakers will also share information regarding financing options for residents looking to electrify their homes. Finally, a cooking demonstration will be geared towards busting myths regarding cooking with induction stoves.

GUEST PRESENTERS:
BUILDING DECARBONIZATION COALITION
CA STATE TREASURER, CA ALTERNATIVE ENERGY AND
ADVANCED TRANSPORTATION FINANCING AUTHORITY

Wednesday March 22, 2023

10:00am – 11:30am

Registration is required: [register HERE](#)
