Subject: TNC Access for All Advice Letter AL 14 Disposition

Dear Stephanie Kuhlman,

Pursuant to Decision D.20-03-007, D.21-03-005, and D.21-11-004, the Consumer Protection and Enforcement Division (CPED) of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records. This status certificate indicates:

Advice Letter Number
Name of Filer
CPUC Corporate ID number of Filer
Subject of AL Filing
Date Filed
Disposition of Filing (Approved, Rejected, Withdrawn, etc.)
Amount of Approved Offsets by County
Effective Date of Filing

CPED did not receive any protests against AL 14.

Please review your advice letter filing with the information contained in the attached AL status certificate and the Appendix for a description of the AL, protest, and staff's disposition. If you have any questions on this matter, please contact CPED Staff via email at tncaccess@cpuc.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Terra Curtis".

Background

In accordance with D.20-03-007, D.21-03-005, and D.21-11-004, Uber Technologies, Inc. (Uber) filed advice letter (AL) 14 on July 15, 2022 to request offsets against quarterly Access Fund payments for amounts it spent during the Second Quarter (Q2) of 2022 to improve wheelchair accessible vehicle (WAV) service. No parties filed protests or responses.

To qualify for an offset in a geographic area, a Transportation Network Company (TNC) must provide the following in its quarterly advice letter filing: (1) presence and availability of WAVs, (2) improved level of service, (3) outreach efforts, (4) accounting of funds expended, (5) training and inspections, and (6) complaints related to WAV service. D.21-11-004 replaced the interim Offset Time Standard (OTS) framework that was adopted in D.20-03-007 (see Table 2), and also replaced the Trip Completion Standard (TCS) framework adopted in D.21-03-005 (see Table 3). Table 1 below summarizes the evaluation criteria adopted in D.20-03-007, D.21-03-005, and D.21-11-004:

Table 1: Criteria for Evaluating Offsets

Evaluation Criteria	Must Demonstrate	Satisfied By
1. Presence and availability of WAVs	(a) the number of WAVs in operation - by quarter and aggregated by hour of the day and day of the week, and (b) the number and percentage of WAV trips completed, not accepted, cancelled by passenger, cancelled due to passenger no-show, and cancelled by driver – by quarter and aggregated by hour of the day and day of the week; (c) operating hours for each geographic area	Submission of the relevant data
2. Improved level of service	Both the Offset Time and the Trip Completion Standards are satisfied: (a) (1) Offset Time Standard & WAV Response Times: Meet or exceed both the relevant Level 1 and Level 2 Offset Time Benchmarks for a given quarter in a given geographic area within the Offset Response time Benchmarks (ORTB). The schedule shall advance each quarter, regardless of whether a TNC submits an Offset Request in that quarter.	Achievement of the Offset Time Standard ¹ and Trip Completion Standard ²

The Commission adopted standards for demonstrating improved level of service in D.20-03-007, D.21-03-005, and D.21-11-004 (see Table 2 and Table 3 below) but did not set qualifying standards for the five other evaluation criteria. **As long as a TNC satisfies both the Offset Time and Trip Completion Standards for improved level of service and submitted all the required data showing WAV presence and availability, outreach efforts, accounting of expended funds, training and inspections, and complaints related to WAV service, it is eligible to receive offsets and its advice letter will be approved.**

Discussion

A. Offset Requirements

To qualify for an offset, a TNC must demonstrate improved level of service by satisfying both the Offset Time Standard (OTS) and Trip Completion Standard (TCS) established in Decisions D.20-03-007, D.21-03-005, and D.21-11-004. Ordering Paragraph 1 in D.21-11-004 provides the requirements that must be satisfied to meet the OTS:

To demonstrate improved level of service for offset eligibility, a Transportation Network Company (TNC) must demonstrate that it met or exceeded both the relevant Level 1 and Level 2 Response Time Benchmarks for a given quarter in a given geographic area. The 1st quarter percentages shall apply to the first quarter that a TNC submits an Offset Request in a given county. Once the schedule begins for a TNC in a given county, the schedule shall advance each quarter, regardless of whether a TNC submits an Offset Request in that quarter.

This means that a TNC must demonstrate first that it meets Level 1 and 2 response time benchmarks for that county (first test), and second, it must meet the minimum percentage of completed trips beginning the first quarter that a TNC submits an Offset Request in a given

505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102-3298

county (second test). Once the schedule begins in a given county, the schedule will advance each quarter regardless of whether a TNC submits an Offset Request for that quarter.

Ordering Paragraph 6 in D.21-11-004 replaced the TCS framework adopted in D.21-03-005, effective starting the second quarter of 2022 (applicable to this advice letter), which requires a TNC to meet the minimum percentage of trip requests completed (third test), and increase the number of completed WAV trips (fourth test):

To demonstrate improved level of service for offset eligibility, a TNC must demonstrate that it met or exceeded:

(a) The applicable minimum percentage of trip requests and completed, and

(b) Either: (a) a greater number of completed trips than in the immediately prior quarter, or (b) a greater number of completed trips than in the immediately prior year's same quarter, if sufficient data is available.

A TNC may elect to be compared to the prior quarter or prior year's same quarter, if applicable.

B. Review of Offset Requests

Uber's AL 14 requested offsets in Q2 2022 totaling \$343,805.27 in two counties. Table 4 and Table 5 below summarize the Q2 2022 Offset Time Standard (response times and OTS percentages), while Table 6 and Table 7 summarizes the Trip Completion Standard (percentages and numbers) reported for each geographic area eligible for offsets.

The review of AL 14 showed that Uber satisfied both the first and second tests as its response times and OTS percentages in both counties met the Level 1 and 2 benchmarks (see Table 4 and Table 5). It also satisfied the third and fourth tests in both counties as the percentage of trip request that were ultimately completed met the minimum benchmarks, and the number of completed trips in both counties resulted in a greater number of completed trips compared to the immediately prior quarter and/or prior year's same quarter (see Table 6 and Table 7).

Finally, Uber satisfied the other requirements by submitting the required information regarding WAV presence and availability, outreach efforts, full accounting of funds expended, complaints related to WAV service, and training and inspections.

C. Disposition of AL 14

After review of AL 14, Staff concludes that Uber complied with the offset eligibility requirements in D.20-03-007, D.21-03-005, and in D.21-11-004 for the counties of Alameda and

San Mateo. Therefore, Uber's AL 14 is approved, effective September 2, 2022. The approved total offset amount is \$343,805.27.
